

*The purpose and goal of the CA Volleyball Camp is to endeavor to demonstrate and instruct young ladies in the skill of volleyball, while surrounding them with a Godly environment that is conducive to their spiritual and physical growth on and off the court.*

*While volleyball is only temporal, we are firm believers that the character building process, such as loyalty to God and team, selflessness, and physical endurance are invaluable lessons each player will be able to use in every facet of their lives.*

*The Lord has truly blessed Calvary Academy through the years with many young ladies who have a "heart" to achieve. Their utmost goal has been to represent their Lord well. They understand the importance of putting God first off the court and this has translated to many blessing on the court. These same ladies are now who make up our coaching staff at Calvary Academy. We are privileged to have setting specialists, defensive specialists, and offensive specialists. They work under the supervision of head coaches Jodie Osborne and Cara Ward, both entering their 23<sup>rd</sup> year of coaching.*

*The face of volleyball is changing every year. It is sometimes hard to keep up with the ever "evolving" game. The truth of the matter is "talent won't win the game; heart will take you ALL THE WAY!"*

*We will endeavor to instill some of the insight to what has worked for Calvary Academy. Though small in number God has allowed us to be great in might.*
